

# PETRON BLAZE RACING HTP

## DESCRIPTION

**PETRON BLAZE RACING HTP** is a high-premium Polyalphaolefin (PAO)-based 0W-40 gasoline engine oil, specially formulated with ultra high-grade fully synthetic base stocks and advanced additive system to provide excellent engine protection for racing cars and high performance vehicles.

## PROPERTIES

- It provides excellent level of engine protection against extreme driving condition and high temperature.
- It has outstanding oxidation and thermal stability for superior engine protection.
- It maintains outstanding engine cleanliness for maximum efficiency and power.
- It provides exceptional protection against wear and corrosion for longer engine life.

## GRADE

SAE 0W-40

## APPLICATION

- High performance cars
- Current and earlier passenger cars
- Sports utility vehicles
- Light duty trucks
- Diesel cars requiring API CF quality

## QUALITY LEVELS

- It is approved and certified according to specifications of:
  - API SN
  - MB-Approval 229.5
  - MB-Approval 229.3
  - Porsche A40
- It has the performance profile of:
  - API CF
  - ACEA A3/B4
  - BMW Longlife-01
  - Volkswagen Standard 502 / 505
  - Renault RN070 / RN0710

## TYPICAL CHARACTERISTICS

Color, ASTM	L2.5
Density at 15.6°C, kg/L	0.8444
Kinematic Viscosity at 40°C, cSt	76.73
Kinematic Viscosity at 100°C, cSt	13.45
Viscosity Index	180
Flash Point, COC, °C	228
TBN, mg KOH/g	9.6
