

# PETRON Blaze 95

## DESCRIPTION

PETRON BLAZE 95 is a regular gasoline formulated with advanced additive technology to provide optimum engine performance. It contains a highly effective detergent additive that keeps clean the engine's fuel injectors and intake valves to maintain efficient and smooth operation. It also contains a friction modifier that reduces engine friction to enhance power and responsiveness. On top of these, it boasts of a unique combustion improver that promotes complete fuel burning to provide more power and reduce fuel consumption.

Petron Blaze 95 provides the following benefits:

- Optimum power and acceleration
- Improved fuel economy
- Better engine protection and longer engine life

## APPLICATION

- All conventional and high performance gasoline engines

## TYPE/QUALITY LEVEL

- Unleaded Regular 95
- Unleaded EURO 4M (MS 118-3)

## AVAILABLE PACKAGE

- Bulk

## TYPICAL CHARACTERISTICS

Density at 15°C, kg/L	0.7509
Research Octane Number	95
Color, Visual	Yellow
Copper Corrosion, 3 hrs. at 50°C	1
Distillation, °C	
Initial Boiling Point	32
10% Recovery	53
50% Recovery	89
90% Recovery	144
Final Boiling Point	179
Dry Vapor Pressure Equivalent at 37.8°C, kPa	61.7
Sulfur, mg/kg	3
Benzene, vol%	2.5
