PETRON FIRST TO OFFER COOKING GAS IN SERVICE STATIONS

KUALA LUMPUR - Major oil company Petron marked another industry first as consumers can now buy its popular cooking gas brand Gasul in 5 service stations beginning April, 2018.

The Petron Gasul LPG cooking gas will be available in 12KG and 14KG cylinders. The company is piloting 5 stations progressively in Klang Valley (Persiaran Bandar Utama, Subang Parade, and Teluk Panglima Garang) and Melaka (Cheng and Ayer Keroh) to serve the needs of the community. More stations will be added in the future to cater to market demand.

“The launch of Gasul LPG cooking gas at Petron stations underscores our promise to consumers to provide better products and services while ensuring convenience. This is a game-changer in the industry since consumers can now purchase Gasul at selected stations 7 days a week via ‘cash and carry’ even during public holidays.” said Head of Retail, Pn Faridah Ali.

“The ‘cash and carry’ scheme means that customers can pick up their Gasul cylinders at our stations without incurring additional delivery charges. Our Customer Service Attendants will be on hand to assist customers and they can be assured of our commitment to quality and safety” continued Faridah.

Petron also announced that Petron Miles card members can use their points to redeem Gasul when purchased at the station.

Petron Gasul is a popular choice among households, serving more homes with its clean, efficient energy-burning LPG. The company also re-introduced the commercial 50KG cylinder in 2016 to meet commercial and industrial demand.

“Delivering excellent customer service is synonymous with the Petron brand. Our service stations now offer fuel products, lubricants, convenience stores and cooking gas - all under one roof, making us a complete one-stop centre,” concluded Faridah.
