**FOR IMMEDIATE RELEASE**

### **361 PETRON DEALERS GET STAMP OF APPROVAL FROM DOSH**

**KUALA LUMPUR** – 62 percent or 361 of 580 Petron service stations underwent the ‘OSH Practices’ compliance audit and were successfully rated as in-conformance to safety and health practices under the regulations by the Department of Safety and Health (DOSH). The audit was held from October 2015 to March 2017 and is still on-going for the remaining stations, which will be completed by 2019.

“We uphold a strong commitment to occupational safety & health in the way we do business. This program aligns with our safety core values and we fully support the government’s initiatives for a safer and healthier work culture,” said Pn Faridah Ali, Head of Retail Business of Petron.

Petron also lauded the DOSH’s initiatives as the compliance certification encourages service station operators to continue implementing the highest standard of safety at the workplace. The certification also serves as a benchmark and reflects Petron service station operators’ commitment to ensure conformance and compliance to the Petroleum (Safety Measures) Act 1984.

“Petron has taken the pro-active step to collaborate with DOSH since 2015 for enhancing safety and health practices in our service stations through the “MSOSH Practices” audit program,” said En. Lokman Hani, Corporate Safety, Security, Health and Environment Manager.
