PETRON BLAZE 100 & BLAZE RACING ENGINE OIL ARE BEST MATCH FOR FORMULA 4 CARS

SEPANG - Petron **Blaze 100** and **Blaze Racing Fully Synthetic Engine Oil** are the “best match” for Formula 4 racing cars. This was tried and tested during the 2016 F4 season, wherein Petron was the official fuel and lubricant sponsor during the three-day finale in Sepang. It was the first time Petron participated as the fuel and engine oil partner for a formula racing motorsport.

“Petron strongly supports the Formula 4 SEA championship and this partnership allows us to prove the top-notch quality of our fuels and lubricants. By being a major part of this event, we are able to promote Asian auto sports and help develop our young professional drivers,” Petron Malaysia Head of Retail Business Faridah Ali said.

Promoter of the FIA Formula 4 Championship in Asean, Triple A Chairman, Mr Peter Thompson advised, “We are proud to have Petron as our official Fuel and Engine Oil partner to the FIA Formula 4 SEA Championship in past season. Having tested Petron’s fuel and engine oil during the past season, we confirm that the products are reliable and the best match to help the performance of our racing cars. Reliable fuel and engine oils are key for the performance of both road and race cars and it is wonderful that Petron Blaze 100 is not just race-proven by also available to public.”

Petron Blaze 100 with its unique Tri-Action advantage guarantees better engine protection, better mileage, and better power. Aside from reducing frictional loss, its advanced formulation cleans engine nozzles and pistons to help improve fuel combustion, while its low sulfur content helps maximize the life span of a catalytic converter.

A Subsidiary of Petron

With the highest octane rating but low sulfur content, Blaze 100 complies with Euro 4M standards, making it environment-friendly, while unleashing the full potential of most vehicles, including those with emission control systems such as catalytic converters and older vehicles. Race cars will particularly benefit more from the optimum power, efficiency, and acceleration that Blaze 100 provides.

Blaze 100 is already being used by many high performance cars and super motorbikes, and has fueled road trips organized by Porsche Club Malaysia, and Lotus Club Malaysia. Locally produced in Petron Port Dickson Refinery, it is now available at 70 service stations in Johor, Melaka, Negeri Sembilan, Selangor, Wilayah Persekutuan, Perak, Penang, Kedah and Pahang.

Meanwhile, Blaze Racing Fully Synthetic Engine Oil provides optimum engine protection under extreme driving conditions. Blaze Racing is specially formulated with TS3™ (Thermal Stress Stabilizing System), an exclusive technology to keep the oil stable at extreme temperatures and engine stress.

Petron engine oils have proven to be very popular with their sales growing rapidly since 2012. Petron carries a wide range of lubricants including gasoline and diesel engine oils, which are retailed at more than 580 Petron service stations as well as in various outlets nationwide.

“Formula 4 cars can benefit from Blaze Racing’s exclusive formulation technology TS3™, which keeps oil molecules stable at extreme engine temperatures. The Petron Blaze Racing Gasoline Engine Oils will provide the ultimate protection required especially for cars driving under extreme conditions,” said Petron Malaysia Product Specialist Max Ho.

Earlier today Petron - powered by Blaze 100 fuel and Blaze Racing engine oil - held an exclusive track day for the automotive media for an exhilarating racing experience in the

single seater Formula 4 cars around the Sepang International Circuit. Press members got to experience driving a racing car during the 5-lap driving experience around the circuit.

“We wanted to give press members a chance to experience the extraordinary driving performance that Blaze 100 and Blaze Racing Fully Synthetic Engine Oil give super cars. These two products are proven to deliver optimum performance, giving drivers a great driving experience,” continued Faridah.

Meeting the press on the track day, home-grown driver Adam Khalid, who generously shared their experience as young professionals in the racing circuit.

In conjunction with the Formula 4 race, from 4-17 September selected Petron service stations in Klang Valley will be presenting Isyraf Danish and Nazim Azman in a meet and greet session. More details will be shared on Petron’s social media sites, Facebook @ PetronMalaysia, Twitter @Petron_Malaysia and Instagram @petron_malaysia.
