PETRON DEALERS CITED BY RMP FOR HELPING KEEP NEIGHBOURHOODS SAFE

KUALA LUMPUR – 10 Petron Malaysia dealers received commendation letters from Royal Malaysia Police (RMP) under the Go-To Safety Points (GTSP) program in assisting to prevent crimes and making neighbourhood safer.

Dealers from Selangor, Johor, Kedah and Penang received the recognition from RMP Director of Crime Prevention and Community Safety, CP Dato' Rusli Ahmad.

The "Go-To Safety Points" is a public-private initiative led by the Royal Malaysian Police. It is under the umbrella of the national government's "United Against Crime" program which aims to keep local communities safe and secure. The program has transformed Petron stations into "safety hubs" for those needing police assistance.

Petron Malaysia, the first oil company to join the GTSP, supports this government-led initiative as part of its core advocacy on safety. Through this program, Petron dealers can better serve the community and play an active role towards safer communities. Motorists can enjoy Petron products and services in a safer and more secure environment. GTSP increases safety and security awareness among Petron customers, and encourage togetherness in the community.

"Our collaboration with the Royal Malaysia Police is a concrete manifestation of our core advocacy on safety. We uphold a strong culture of safety in the way we do business. Beyond that, we support the government in promoting safer and more secure communities," said En Lokman Hani Corporate Safety, Security, Health and Environment.

"We are happy to do our part as a good and active partner in the community. This program is also in-line with our value to customers, which is to provide excellent and a personalized touch service to our customers," said Pn Mazita Abdul Majid, Dealer of Petron Batu Caves.

Meanwhile, Petron Malaysia has placed new safety awareness initiative posters at its stations. This serves as reminders to the public to care for their belongings and be vigilant of their personal belongings as a mechanism to prevent petty thefts at service stations.

"The posters are addressing common issues which can be prevented and through advocacy such as this, we hope to contribute to making safer communities," said Lokman.
